Card base 11" x 5 1/2"

The card base is scored, with the 11" side at the top, at 1-3/4", 3-1/2", 5-1/4" and 7". Then rotate so the 5-1/2" side is at the top. Line up the edge of your cardstock to the 1-1/2" mark, then will bring your cutting blade down to the first score line and cut down to the third score line. You then rotate your card stock again, so the top is now at the bottom of the trimmer and do the same. Line up edge to the 1-1/2" mark and start at the first score line and cut up to the third score line.

Side bar pieces 1 1/2 x 5 1/4 - cut 2 If you want 2 layers you should adjust by 1/8"

The two little fold pieces 1 1/2 x 1 1/4 cut 4

Back inside piece 3 3/4" x 5 1/4"
